New Selective Draft Bill Before Congress To Increase Army Without Calling Men Having Dependents

### SOLID SUPPORT OF COLORED VOTERS LANDS CANDIDATES

District Returns Held  
Up For Official Count.  
Spencer Wins Over  
Torrey By 40,000.

All indications point to the nominations of Homer O. Phillips, and Charles H. Turpin for constable, in the Fourth District. The district was in many cases the only one to return in time to make the unopposed poll returns on the nominations of district candidates and it will be necessary to wait for the results to learn whether or not the candidates for State legislature, justices and constables.

The members of the Board of Education announced that the official count of ballot boxes would begin Friday and that four or five days would be required to finish the count.

Negro Give Phillips and Turpin Solid Support

The same day, it was made known that the nomination of Phillips and Turpin, if the votes have been honestly counted, both were carried every Negro precinct in the 17th and 18th wards, and in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, and 62nd.

In three precincts of the seventh ward Phillips received 127, Bush 113, Walker 102, and 32. Walker ran heavy in the 6th, was seconded at the 11th, and Bush's lead. These returns indicate the nomination of McEachern and Phillips for Justices of the Peace; Turpin and Torrey for commissioners of election; and the 16th ward, belonging to this district, McEachern received 78, Phillips 61, and Shuler 41.

To give an idea of how solid was the support given to Phillips and Turpin, the following figures are offered. In 6 of the 14 precincts in the 17th ward the vote stood: McEachern 234; Phillips 202; Shuler 46. In the two precincts of the 16th ward, belonging to this district, McEachern received 37, Phillips 34, and Shuler 41.

Walker's vote is not known. Phillips was elected to the 17th and 18th and in the 9th districts of the 17th.

No figures are obtainable on the 5th district where Chas. H. Morton was a candidate for constable. Dr. Wm. M. H. Morton, candidate for representative of 5th district, had no contest and was nominated.

It is now estimated that Selden P. Spencer has been nominated by more than 40,000 over Colonel Torrey for U. S. Senator. Spencer carried St. Louis by 7,798.

### ST. PAUL A. M. E. NOTES

The members of St. Paul were all up Sunday morning, and were anxious to hear and greet their beloved pastor, who had just returned from his vacation. Owing to the extremely hot weather, the service was suspended so that it was interesting from start to finish. Dr. Johnson preached from the 97th Psalm and the first verse. It was consoling to those who heard him with so much evidence produced in favor of those who cast all their fears on him who doeth all things well. It was easily seen that the pastor's strength had been tested by an absence in the morning. Scenes and pictures were drawn, which made an everlasting impression on his hearers.

The pastor is now getting ready for his pastorate, and the services are everything in shape. It is expected that the fourth and last quarterly conference, which is to be held the first Saturday in September, will eclipse all the conferences held here. The members and friends are working to that end. It is needless to say that the pastor is growing stronger and is gratifying himself in the hearts of the people. The increased crowds speak for themselves.

Mr. J. C. Parker, one of the class leaders and class friends, left Sunday morning as he was on the eve of leaving for the camp in answer to his country's call. He carries with him the best wishes of the members of the church. Special invitation to the members of St. Paul Church. Come early Sunday morning and hear Dr. Johnson. Special invitation to strangers.

In the afternoon a large part of the congregation went to Wellston to a special service.

## DEMOCRACY

A Democracy is Founded Upon Equal Rights, Equal Duties and Equal Responsibilities For All Citizens.

### OFF TO TRAINING CAMPS

Over fifteen hundred draftees departed from St. Louis during the three days' movement this week. It was a most interesting sight to behold. Those Colored boys entered the service for their country joyfully. Each man seemed to have realized that the responsibility for the success of the allied forces depended upon his individual fighting power. That was a fine spirit; that was the right spirit. That kind of spirit should permeate the very soul of every American soldier.

As they go, their souls are afire with the patriotic and heroic deeds done by the men of their race in all the previous wars of this nation. The glowing record of Crispus Attucks who was first to spill his blood in defense of the nation, at Boston, so fresh in their minds. The account of black men, who saved the day in the late Civil War; that of the Colored men at San Juan Hill, at Carizal and the more recent achievements of our boys at the front in France, have inspired these boys, and they are saying, "what men have done, men may do."

They are proud of the record made by their brothers in black, and they baffle us all when we heard to express: "Uncle Sam can't win this war without us black boys."

They seem to think that everybody is depending upon the "black boys" and they are determined not to betray that confidence. They have been told that the Negro soldier is most dependable in the great crisis, and they believe it. All the Negro soldier wants is a man's chance and he will show to the world that he is made of the "right stuff."

### Seen By An Argus Eye

One of the unpleasant incidents of the parades for drafted men, during the past few days, was the uninterrupted actions of a few ignoramuses who ran about shouting obscenities at the draftees to make them fall off, ready for a song if their command was not heard. These hoodlums did not wait for the flag to appear and give themselves away. They do not seem to know that the hat should be removed while the flag is passing. In their ignorant behavior they were as bad as the Negroes who have been stopped by the police. It is the duty of men to remove their hats, and the left-handed plugger same over the left shoulder, plus or minus the flag, is passing. This is the way the flag is being played. If sitting all should rise. All citizens should observe this rule and no one should have to be insulted by rowdies because of it.

## An Early German Invasion

### The Hessian Fly

#### THE FIRST GERMAN INVASION

Way back in Revolutionary days came the first German invasion of America. The Hessians were poorly managed soldiers, and had no love for the cause for which they were fighting. Their career as fighting men ended suddenly on a certain Christmas eve when Washington crossed the Delaware. As soldiers—they were not a very great success, but the damage which they did to America did not end with their capture at Trenton. Unknowingly they introduced into this country the Hessian fly, which was destined to become our greatest wheat pest.

According to tradition, this fly, or rather the larvae of the fly, was brought to this country in the straw which the Hessian soldiers used for bedding for both man and animal. It found congenial conditions in America, multiplied enormously, and now infests practically all wheat producing regions. The annual loss due to it is estimated to be far up in the millions, and there is no present prospect of eradication.

The Fly Lives Over Winter in the New Sowing of Wheat.

This fly is very small—scarcely a quarter of an inch in length, and as for looks—well, it looks like a fly. Eggs for the spring brood are laid early in the season. The small grubs grow down to the base of the plant and live on the plant tissues, and later on go into a cocoon or chrysalis form. Emerging from this they become the flies of the fall season. Just as mature the wheat gets above the surface of the ground, it is then that the broad head is destructive, and which forms the "husted" form seen on infested wheat.

Seed Wheat Loss.

The time of emergence of this second brood of egg-laying flies is fixed by nature. If the farmer fails only to detect it, and delay sowing, the fly will go off looking for other pastures, and may even die without having found opportunity for laying its eggs.

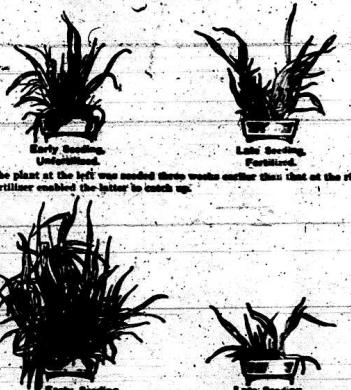

But the Weather is Against Late Sowing;

Right here is where late sowing to control the fly is against the best farm practice. Winter here is late in arriving and destroys the young plants.

Unless the wheat has made a good growth before the ground freezes, its chance of surviving the winter is slim. We must delay sowing or the fly gets to the wheat. We must have good growth or winter kills it. What is to be done?

Experience and actual experiment has shown that by using fertilizer wisely and carefully not only can late-sown wheat be made to catch up to early-sown and thus the Hessian fly be uninvited and the weather man spared all at one operation; but at the same time the crop can be greatly increased. In order to farm profitably so that it may be that the Hessian fly is a blessing in disguise. The farmers who through no reverse are enabled to teach themselves "the bitter way."

#### LATE-SOWN FERTILIZED WHEAT "CATCHES UP" WITH THAT SOWN EARLY

The plant at the left was sown three weeks earlier than that at the right, but fertilizer enabled the latter to catch up.

In regions where the Hessian fly is not to be feared, early sowing with fertilizer is the best combination. The plant at the left was sown three weeks earlier than the one at the right; but the time of sowing was exactly the same as that of the plant on the left above. Fertilizer made the difference.

#### SAVE FARM LABOR

The liberal use of commercial fertilizer is to be especially recommended under existing conditions. Considering the amount of labor involved in the use of manure to increase crop production, this time by the judicious use of fertilizer, is well worth the other means that can be employed. Through the use of modern planting machinery more fertilizer can be applied with very little extra labor, and large increases in yield may be secured in this way.
